

Prochem Fibre & Fabric Rinse

Low foam carpet cleaning concentrate for hot water carpet soil extraction machines.

Clear and stable at high temperatures.

Free rinsing, anti-resoiling formula.

**Product code
2520**

USES

Acidic rinse agent pH & colour stabiliser for carpets & fabrics.
Helps to prevent most colour bleed, yellowing and browning.
Conditions all natural and synthetic fibres.
Effective for neutralising urine contamination and odours.

DIRECTIONS

APPLICATION:

Portable extractors: Dilute 10 to 20ml Fibre & Fabric Rinse per litre of warm water (1:100 to 1:50).

Spray treatment: Dilute 20 to 50ml Fibre & Fabric Rinse per litre of warm water (1:50 to 1:20).

Truck-mount units: Mix 1 litre Fibre & Fabric Rinse with 4 litres of water to make metering concentrate. Set flow meter to 2 gallons per hour.

Always pre-test carpet or fabric for colour fastness and possible colour or texture change before proceeding. Do not use on water sensitive fabrics. Apply through soil extraction machine as a cleaning and rinsing agent after normal cleaning or pre-spraying procedure. Alternatively, apply Fibre & Fabric Rinse solution by pressure sprayer after normal cleaning procedure. Upholstery fabric should be rinsed, extracted or sprayed with Fibre & Fabric Rinse solution and then blotted with a clean white towel.
