WINTER WHITE SALT

Quality

Crude white salt containing a small quantity of anti-caking additive to maintain spreading properties after prolonged storage. Ideal for de-icing roads in winter

Chemical Analysis:

		<u>Specification</u>		<u>Typical</u>
		<u>Min</u>	<u>Max</u>	
Sodium Chloride (Calculated on dry basis)	NaCl	98.50 %	99.00 %	
Sulphate	SO ₄		1.00 %	
Calcium	Ca		0.50 %	
Magnesium	Mg		0.50 %	
Water	H ₂ O	5.00 %		2.9%
Insolubles		0.80 %		

Typical Sieve Analysis:

PASSES THROUGH 6 MM SIEVE	100 %
RETAINED ON 2MM SIEVE	70%

Packed in 25kg polyethylene bags.

As with all our products, the user should check the suitability of our product for his own particular application.

END
