DOUBLE-D TOILET CLEANER

TOILET AND URINAL CLEANER, DESCALER AND FRESHENER

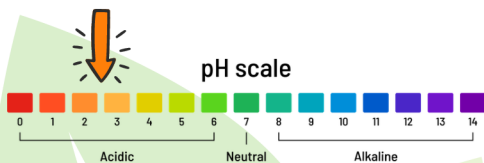

-  Ready to Use Formula
-  Cleans & Deodorises
-  Stainless Steel Safe

Description:

ProJanta Double D Toilet & Urinal Freshener 1L is a ready-to-use toilet and urinal cleaner developed to clean, descale and deodorise washroom surfaces effectively. Ideal for use on toilet bowls, urinals, sinks and other ceramic surfaces, it helps remove deposits while leaving areas smelling fresher after use. Safe for stainless steel, it offers added versatility for modern washroom environments where multiple surface types need regular maintenance.

Its viscous formula helps the product cling to surfaces for improved cleaning action, while the pleasant floral fragrance supports a cleaner, more inviting washroom finish.

Useful Information:

Product Code:	10104
Product Colour:	Blue
Product Fragrance:	Floral
pH Level:	2 - 3

Directions:

Double D Toilet & Urinal Freshener should be used neat for the cleaning, descaling and deodorising of toilet bowls, urinals and other ceramic washroom surfaces. For toilet bowls, apply the product under the rim at the water outlets and around the bowl above the water level, then leave for 5 minutes before brushing any stubborn stains. For stains below the water level, force the water around the S bend with a toilet brush and apply the product in the same way. For urinals, apply evenly across the surface, leave for 5 minutes, scrub stained areas with a brush and allow the product to flush away automatically. For sinks, insert the plug, apply carefully to taps and around the inside of the sink, leave for a few minutes, then agitate with a cloth or sponge before removing the plug and rinsing thoroughly with clean water.

Rinse brushes and cleaning tools well after use. Suitable for use on toilets, urinals, ceramic surfaces and stainless steel fixtures where effective deodorising and descaling action is required.
