SPOT FREE QUEST DISHWASH DETERGENT

-  Taint free
-  Non-foaming
-  Powerful Formula

Description:

Our Spot Free Quest Dishwash Detergent is a professional-grade automatic dishwasher detergent designed to remove food soils and soiling from crockery, cutlery, stainless steel and utensils with reliable performance in commercial settings such as kitchens and catering environments. It helps deliver clean, residue-free results by effectively breaking down deposits during wash cycles, contributing to brighter, sparkling dishes. The formula includes an anti-corrosive agent and a high sequestrant content, which enhances performance in both hard and soft water areas, protecting dishwashing machines and improving longevity. Suitable for use in all automatic dishwashing machines, this detergent supports efficient, high-quality cleaning where consistent results are needed. It's a trusted choice for foodservice professionals seeking dependable daily dishwashing performance.

Directions:

Ensure the dishwasher is clean and functioning correctly before use. Connect the detergent to the machine's automatic dosing system or fill the designated detergent reservoir according to the manufacturer's instructions. For best results, follow the recommended dilution and dosing guidelines based on water hardness and machine type. Do not mix with other chemicals. Run the dishwasher on the appropriate wash cycle for the load being cleaned.

Suitable for use in commercial automatic dishwashing machines only. Check rinse aid levels regularly to maintain spot-free results. Store the product upright in a cool, dry place away from direct sunlight. Always wear appropriate protective gloves when handling concentrated detergent and avoid contact with skin and eyes.

Useful Information:

Product Code(s):	1771 - 1772 - 17002
Product Colour:	Yellow
Product Fragrance:	Odourless
pH Level:	13.5
Also available in:	10L, 20L
