OXY LAUNDRY BOOSTER

PROFESSIONAL CLEANER AND STAIN REMOVAL

-  Boosts Stain Removal
-  Great for Heavy Soiling
-  Automatic or Manual Washing

Description:

ProJanta Oxy Laundry Booster 5kg is a powerful oxygen-based laundry booster formulated to enhance wash performance on heavily soiled loads and help remove severe, stubborn stains more effectively. Designed to support commercial and on-premise laundry operations, it provides a practical way to strengthen the overall cleaning action of a laundry system when standard detergent alone may not be enough.

Suitable for both manual dosing and autodose systems, it offers flexibility across different laundry set-ups while helping maintain consistent stain-removal performance.

Useful Information:

Product Code:	18101
Product Colour:	White w/ Blue
Product Fragrance:	Odourless
pH Level:	N/A

Directions:

Oxy Laundry Booster should be added to the wash to enhance overall laundry performance on heavily soiled loads and to help tackle severe, stubborn stains. Dose at 20-30g per 15kg load, using the product either through manual dosing or an autodose laundry system as appropriate to the site's washing process.

Always check items for colour fastness before use to ensure suitability.

When handling and using the product, hands should be washed thoroughly after use, and suitable protective clothing together with eye or face protection should be worn.
