STERISOLV MULTI-PURPOSE CLEANER

- EN 1276 Tested
- Versatile Uses
- Powerful Sanitiser

Description:

STERI-SOLV Multi-Purpose Cleaner & Sanitiser 5L is a versatile cleaner and sanitiser developed for effective use across food, industrial, domestic and institutional environments.

Tested to meet BS EN 1276 requirements, it provides broad-spectrum sanitising performance against a wide range of bacteria, including E. coli, MRSA, Pseudomonas aeruginosa and Enterococcus hirae. Its formula is also designed to deliver powerful cleaning action against spore-forming bacteria, including Clostridium difficile (C-diff), making it suitable for hygiene-focused cleaning where high standards are essential.

Supplied as a pink, sweet-smelling liquid that is fully miscible in water, it combines practical cleaning performance with flexible use across a range of washable surfaces.

pH scale

Directions:

Multi-Purpose Cleaner & Sanitiser should be used as part of a routine cleaning and sanitising programme across food, industrial, domestic and institutional environments where broad-spectrum hygiene control is required. Apply the product to the surface using an appropriate cleaning method to ensure even and thorough coverage, allowing it to support effective cleaning and sanitising performance on general hard surfaces. Suitable for use in areas where control of bacteria such as E. coli, MRSA, Pseudomonas aeruginosa and Enterococcus hirae is required, as well as where strong cleaning action against spore-forming bacteria including Clostridium difficile is needed.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the container tightly closed and store in a cool, well-ventilated area.

Useful Information:

Product Code:	7302
Product Colour:	Pink
Product Fragrance:	Floral
pH Level:	8 - 9.5
