STERISOLV ODOURLESS SANITISER

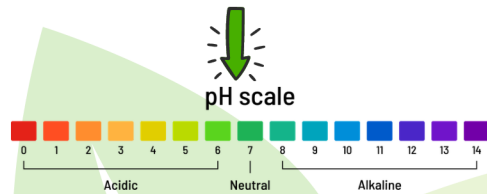

- EN 1276 Tested
- Odourless
- Wide Range of Useage

Description:

STERI-SOLV Odourless Cleaner & Sanitiser 5L is a pH-neutral hard-surface cleaner and sanitiser developed for daily use in hygiene-sensitive environments, particularly within the food industry where strong fragrances are not suitable. Its odourless formula allows work surfaces to be cleaned and sanitised effectively without leaving a lingering scent, making it ideal for restaurants, kitchens and other food preparation areas.

Tested to meet BS EN 1276 requirements, it is effective against MRSA and targets a wide range of bacteria including E. coli, Pseudomonas aeruginosa and Enterococcus hirae. It also provides powerful cleaning action against spore-forming bacteria, including Clostridium difficile (C-diff).

Useful Information:

Product Code:	7303
Product Colour:	Yellow
Product Fragrance:	Odourless
pH Level:	6 - 7.5

Directions:

Odourless Cleaner & Sanitiser should be used as part of a daily cleaning and sanitising routine on hard surfaces in restaurants, kitchens and other food preparation areas where a fragrance-free product is preferred. Apply the product evenly to worktops and other food-area surfaces using a suitable cleaning method to ensure thorough coverage as part of your normal hygiene procedure. The pH-neutral formula is suitable for regular use and provides effective sanitising performance on hard surfaces where broad bacteria control is required. When handling and using the product, suitable protective gloves and eye protection should be worn.

After use, keep the container tightly closed and store in a cool, well-ventilated area.
