STERISOLV SURFACE CLEANER & SANITISER

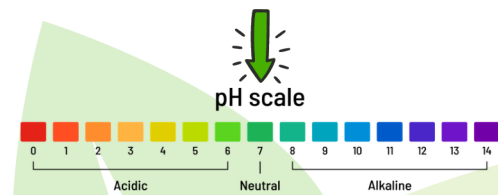

-  pH Neutral
-  Daily Cleaner
-  EN 1276 Tested

Description:

STERI-SOLV Surface Cleaner & Sanitiser is a ready-to-use, pH-neutral cleaner and sanitiser developed for the daily cleaning of water-washable hard surfaces. Ideal for worktops, tables, desks and other frequently touched areas, it cleans and sanitises in one simple step without requiring dilution, making it convenient for routine hygiene use.

Tested to meet BS EN 1276 requirements, it kills 99.9% of bacteria and is effective against a wide range of organisms including E. coli, MRSA, Pseudomonas aeruginosa and Enterococcus hirae. It also provides powerful cleaning action against spore-forming bacteria including Clostridium difficile (C-diff). Supplied as a colourless, soluble liquid with a fresh floral fragrance, it is available in both a 750ml spray bottle and a 5-litre bulk container.

Useful Information:

Product Code:	7304 / 7305
Product Colour:	Clear
Product Fragrance:	Sweet Odour
pH Level:	7
Also available in:	750ml, 5L

Directions:

Surface Cleaner & Sanitiser should be used undiluted as part of a daily cleaning and sanitising routine on water-washable hard surfaces. Apply directly to the surface using the ready-to-use spray or through a suitable application method from the bulk container, ensuring even coverage across worktops, tables, desks and other hard surfaces. The pH-neutral formula is designed for convenient day-to-day use, helping to clean and sanitise in one step while leaving a fresh floral fragrance. Suitable for workplaces, public areas and other environments where effective hygiene control is required on hard surfaces.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the container tightly closed and store in a cool, well-ventilated area.
