ECO LOGIK FLOOR CLEANER AND MAINTAINER

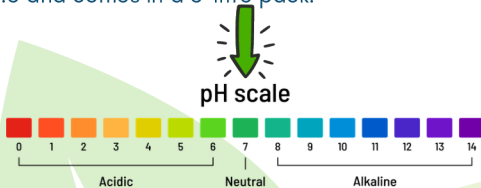

-  Multi-Floor Performance
-  Lemon Fresh Fragrance
-  Daily Maintenance Friendly

Description:

ECOLOGIK Floor Cleaner Maintainer 5L is a versatile floor cleaner developed for use on a wide range of water-washable floor surfaces. Suitable for safety flooring, epoxy resin, concrete, quarry tiles, and polished marble and terrazzo, it is ideal for routine cleaning in areas where different floor finishes need a reliable maintenance product. Its formula performs particularly well on textured, porous and anti-slip surfaces, helping keep floors clean and well presented in everyday use. Suitable for application with a mop, it works well for daily maintenance cleaning, and can also be applied by trigger spray and machine buffed on polished floors to help maintain appearance.

Supplied as a green, lemon-fragranced liquid that is soluble in water, it has a concentrate pH of 6.5-8.5 and comes in a 5-litre pack.

Useful Information:

Product Code:	CG04
Product Colour:	Green
Product Fragrance:	Lemon
pH Level:	6.5 - 8.5

Directions:

Floor Cleaner Maintainer should be pre-diluted in a bucket of hot water according to the level of soiling and the floor maintenance required. For light everyday cleaning, dilute at 1:50; for routine cleaning in high-traffic areas, use 1:30; and for heavily soiled areas or floors with longer periods between cleans, dilute at 1:5. Apply the prepared solution with a mop, working it into the surface before wiping away until the floor is clean and dry. Suitable for use on a wide range of water-washable floors including safety flooring, epoxy resin, concrete, quarry tiles, and polished marble and terrazzo, particularly where regular maintenance cleaning is required. On polished floors, the product may also be used as part of a maintenance routine where trigger spray application and machine buffing are appropriate.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the product stored in a safe and secure place out of reach of children.
