ECO LOGIK SURFACE CLEANER & SANITISER

-  Kills 99.999% of Bacteria
-  Fast Drying Formula
-  Food-Safe Sanitising

Description:

ECOLOGIK Surface Sanitiser 750ml is a fast-drying, spray-on bactericidal cleaner developed for regular hygiene use in the food industry and other hygiene-sensitive environments. Used undiluted, it kills 99.999% of bacteria and has been tested to BS EN 1276, with proven effectiveness against MRSA, Salmonella, E. coli and Pseudomonas aeruginosa.

Suitable for a wide range of water-resistant hard surfaces, including glass, aluminium, stainless steel, rubber, ceramic, plastic and tiles, it is ideal for display cabinets, sneeze screens, fridges, fridge seals, chill areas and food probes. It is also suitable for general surface disinfection in care settings, including fixtures, fittings and frequently touched items.

Directions:

Surface Sanitiser should be used undiluted for the regular cleaning and disinfection of water-resistant hard surfaces in food preparation, catering and care environments.

Spray directly onto the surface to ensure even coverage, then wipe clean using a suitable cloth or paper as part of the normal sanitising process. The fast-drying formula is suitable for use on glass, aluminium, stainless steel, rubber, ceramic, plastic and tiled surfaces, making it ideal for display cabinets, sneeze screens, fridges, fridge seals, chill areas and food probes, as well as general touchpoint disinfection in care settings.

After use, keep the container tightly closed and store in a cool, well-ventilated area.
