SEA BREEZE AIR FRESHENER AND DEODORISER

-  Water Soluble
-  pH Neutral
-  Fresh Fragrance

Description:

Projanta Sea Breeze Air Freshener is an economical and easy-to-use air freshener designed to help neutralise unpleasant odours and create a fresh, pleasant atmosphere.

Ideal for housekeeping routines and public areas, it can be sprayed into room corners to freshen and condition the air, helping rooms feel cleaner and more welcoming. It can also be used on entrance matting to support a positive first impression in reception areas, corridors and other frequently used spaces.

Supplied as a colourless, water-soluble liquid with a sweet-smelling fragrance, it is a practical choice for regular ambient freshening across a wide range of environments.

Directions:

Sea Breeze Air Freshener should be sprayed as required into the corners of the room to help freshen and condition the atmosphere, leaving the area with a clean, pleasant fragrance.

It may also be sprayed directly onto entrance matting to help create a welcoming first impression in reception, housekeeping and public areas. Suitable for routine odour control where a simple, economical air freshening solution is required.

When handling and using the product, suitable protective gloves and eye protection should be worn, and the product should be stored in a cool, well-ventilated area after use.
